Dear Visitor,

From 20 May 2020 visits to our hospital will be possible again under the following conditions:

- Visits are allowed from the 3rd day of treatment.
- Visiting hours: daily 15:00 to 19:00
- Duration of visit: max. 1 hour

Visitor Permit for Registered Persons

- Patients of full age are allowed one visit per day (1 - 1 - 1).
- Children and adolescents are allowed two visitors per day (1 - 2 - 1).
- Exceptions are made for visits to seriously ill patients and for fathers of new-born babies.
- Children under 10 years of age are not allowed to visit the hospital as visitors.
- Some clinics may impose their own special rules depending on the clinical picture of the patients.
- Our patients provide the data of the visiting person(s) at the time of admission. This data is stored in our IT system and is also checked on each visit.
- After a short screening procedure, you will receive a visitor’s badge at our welcome desk. Please hand in your badge at the exit after your visit.
Rules of conduct in the hospital and in the patient’s room

- No more than one visitor may be present in the patient’s room at any one time. As a result, waiting times may occur. You and your relative will help us a lot with the organisation if you could come to an agreement with your room neighbour(s) beforehand on who should receive visitors and when. This way you can avoid unnecessary waiting times.

- Please choose short distances and avoid any unnecessary walking around - please go to the ward immediately and report to the duty room to register and de-register.

- Please follow the instructions of the hospital staff. They may limit visits at any time.

- A mouth and nose protector must be worn correctly over mouth and nose during the entire time in hospital.

- Please disinfect your hands when entering and leaving the clinic and the patient’s room.

- Please refrain from physical contact and always keep the required distance (at least 1.50 metres) from your relatives and other persons.

- These rules are valid from 20.05.2020 and can be amended at any time.

We ask for your understanding for these precautions. They are solely for your own protection, the protection of our patients and our employees.

Thank you for your support!
