RULES FOR RELATIVES

As a relative with visiting rights, you are registered with the admissions desk at the main entrance. Access to the hospital is only permitted wearing a medical face mask or, even better, an FFP2 class mask. You will then receive a written access permit and a personal medical face mask.

INSTRUCTIONS ON USE OF THE MEDICAL FACE MASK:

- Please wear your personal medical face mask during your entire visit to our hospital.

- Please confine yourself and your relative exclusively to the patient room during your visit and avoid taking walks either inside or outside the building.

- In order to provide the right protection, the mask must be close fitting and cover the nose, mouth and chin. Press the nose clip firmly against your nose.

- If at all possible, please refrain from touching the outer surface of the mask with your hands during wearing and when fitting or removing.

- Our staff will be happy to help you should you require any assistance when fitting or removing the mask.

- In addition, we would ask you to please continue to observe the familiar hygiene measures. These include in particular the disinfecting of hands and maintaining a safe distance of two metres from others.
Dear Patients, Dear Relatives,

It is times like these in particular where we are experiencing the Corona pandemic that we need to take special measures to protect you and your health and, indeed, the health of our staff. The purpose of these precautions is to keep the risk of infection as low as possible. This is why we would ask you to please help us by wearing a medical face mask during your stay in our hospital. This measure represents an important step in protecting other patients and our staff.

Thank you very much for your understanding.

Your Team from
Evangelisches Klinikum Bethel (EvKB) and Krankenhaus Mara

---

RULES FOR PATIENTS

On admission to the EvKB and Krankenhaus Mara, you will receive your own personal medical face mask. Please use this during your stay in our hospitals.

INSTRUCTIONS ON USE OF THE MEDICAL FACE MASK:

- Please wear your personal medical face mask as soon as you come into contact with other people and are no longer able to maintain a distance of more than two metres. Our staff will inform you when you must wear the medical face mask at other times.

- Please address our staff if your protective mask is damaged in any way. You will be provided with a replacement in this case.

- In order to provide the right protection, the mask must be close fitting and cover the nose, mouth and chin. Press the nose clip firmly against your nose.

- If at all possible, please refrain from touching the outer surface of the mask with your hands during wearing and when fitting or removing.

- Our staff will be happy to help you should you require any assistance when fitting or removing the mask.
